These returns and fund operating expenses are expressed as percentages. 3, 5 and 10 Year/Since Inception returns shown are annualized. For 10 Year/Since Inception, if the fund was not in existence for 10 years, returns shown are since inception. If the fund is less than one year old, returns are not annualized.

Performance returns reflect deduction for fund operating expenses. Your Plan may also assess an administrative fee which would reduce the performance quoted above.

Funds may impose redemption fees, and/or transfer restrictions, on certain transfers, redemptions or exchanges if assets are held less than the period stated in the fund's prospectus or other disclosure documents. For more information, please refer to the fund's prospectus and/or disclosure documents.

Investment decisions should not be based solely on the performance data contained herein. Although data is gathered from reliable sources, the completeness or accuracy of the data cannot be guaranteed.

Securities, when offered, are offered through GWFS Equities, Inc., a wholly owned subsidiary of Great-West Life & Annuity Insurance Company. GWFS Equities, Inc., or one or more of its affiliates, may receive a fee from the investment option provider for providing certain recordkeeping, distribution, and administrative services.

On occasion, the name and/or investment objective of an investment option may change. For specific information on whether the option name has changed within the past year, or if the investment objective has changed in the last ten years, please contact your Registered Representative for a current prospectus.

Master Trust invests in another common trust fund ("Money Market Trust"). An investment option detail sheet is available on the website [www.state.ak.us/drb](http://www.state.ak.us/drb) and contains detailed information pertaining to the investment mix of the Money Market Trust's investments. The Money Market Trust was incepted on 6/23/06 through the conversion of an investment portfolio that was incepted as of the inception date listed. The returns shown are linked returns of the investment portfolio and the Master Trust. Prior to 6/23/06, these returns represent the historical returns of the prior investment portfolio and are net of the actual investment management, accounting, and custody fees incurred by the portfolio. After 6/23/06, the returns use the historical returns of the Master Trust, and are net of the actual investment management, accounting, and custody fees applicable to the Master Trust. Total returns include changes in principal value, reinvested dividends, and capital gains distributions. Investment returns of the Master Trust will vary and past performance cannot guarantee future results.

<sup>4</sup> The investment management fees for the S&P 500 Stock Index Fund vary based on total assets of all participants in each fund. The fees for the S&P 500 Stock Index Fund include custodial expenses of approximately 0.05%.

<sup>5</sup> The 7-day current yield more closely reflects the current earnings of the money market portfolio/fund than the total return quotation.

<sup>6</sup> Target Date funds may be subject to fund operating expense at the target date fund level as well as a prorated fund operating expense of each underlying fund in which they invest. For more information, please refer to the fund prospectus.

<sup>7</sup> A benchmark index is not actively managed, does not have a defined investment objective, and does not incur fees or expenses. Therefore, performance of a fund will generally be less than its benchmark index. You cannot invest directly in a benchmark index.

<sup>8</sup> Benchmark index returns are supplied by Morningstar, Inc. There may be another benchmark that is more specific to each of the funds listed under the broad asset class. Please refer to the fund's prospectus for more specific information as to the fund's actual benchmark index.
